

HYGIENIC EURO PALLET WITHOUT RUNNERS

HYGIENIC CLEAN 1208-C9

European hygienic pallet without runners (9 feet) ideal for environments that require maximum hygiene. Completely plain and closed that facilitates cleaning after each reuse. Thanks to its diaphanous windows it is ideal for manual or automatic manipulation eliminating the breakages and inconveniences that can be caused by accidental manipulation of the equipment.

Advantages

- ✓ Perímetro anti-impacto
- ✓ Esquinas preparadas para un óptimo retracilado
- ✓ Altura optimizada
- ✓ Superficie Cerrada
- ✓ Tacos Cerrados
- ✓ Sin Cavidades

Recommendations for use

- ✓ Do not stack more than 54 pallets, which is equivalent to a height of 7 m when empty
- ✓ Do not handle stacks of more than 35 empty pallets.
- ✓ Once stacked in height check that they are properly fitted.

*1 The values indicated are approximate and are based on both practical experiences and ISO 8611 tests with a uniformly distributed standard load, distributed all over the pallet surface, duly consolidated, compact and stable and at ambient temperature (20°C [68°F]) for a specific time. Different load conditions produce different values that have to be checked at the customer's request. Any deterioration or breakage in the pallet may vary these results.

*2 Due to the characteristics of the materials recycled, the dimensions and the weight of the pallets may present certain tolerances. Dimensional tolerances according to DIN ISO 2768-V and weight tolerances: +/- 4%. Except for references of the FLAT category: +/- 3%.
