

SQUARED NESTABLE PALLET 1200X1200 MM

LIGHTWEIGHT BASIC 1200-O9

Due to its particular square measure of 1200 x 1200 mm this pallet offers a wider area for loading. Up to 6 modules of 600 x 400 can be transported on the surface. In addition to this version with 9 feet, the pallet is also available with 3 skids 'BASIC 1200-O3' that allows stacking or its use by automatism.

Advantages

- Facilidad de extracción del palet sobre torre
- Sin topes
- Área más amplia para su carga

Recommendations for use

- ✓ Do not stack more than 90 pallets, which equates to a height of 4 m of empty pallets.
- ✓ Do not handle stacks of more than 65 empty pallets.
- ✓ Once stacked in height check that they are properly fitted.

*1 The values indicated are approximate and are based on both practical experiences and ISO 8611 tests with a uniformly distributed standard load, distributed all over the pallet surface, duly consolidated, compact and stable and at ambient temperature (20°C [68°F]) for a specific time. Different load conditions produce different values that have to be checked at the customer's request. Any deterioration or breakage in the pallet may vary these results.

*2 Due to the characteristics of the materials recycled, the dimensions and the weight of the pallets may present certain tolerances. Dimensional tolerances according to DIN ISO 2768-V and weight tolerances: +/- 4%. Except for references of the FLAT category: +/- 3%.
